Select School Board Members at Polls on Saturday Afternoon

Voting for 7-Member Boards And Caucusing for 3-Man Board Posts

As if one election weren't enough in one week, Antioch township electors are asked to go to the polls again Saturday—this time to select members of the boards of education.

Where there are seven-man boards, the voting will be from noon to 7 p. m. and where there are smaller boards the selection will be done by caucus.

For the Antioch Township High School Board, Harold Wilson, upholsterer, residing on Rte. 173, is seeking re-election; E. R. Prossie, Lake Villa resident employed by the Illinois Bell Telephone Co., and William R. Brook, Antioch banker, prominent in American Legion, Lions Club and other civic groups, are candidates. Two posts are to be filled.

For the Antioch Grade School Board of Education, Mrs. Helen Kopriwa, incumbent, Mrs. Ingeborg Wiegart, North Avenue, Channel Lake; Raymond P. Toft, Shell Oil station proprietor; Leyton Ipsen, Leona Lake, employed at Johnson Motors, Waukegan; and George Hellstern, Leona Lake, are the five candidates for the two vacancies.

There are three candidates for the two vacancies on the Grass Lake Board of Education. Mrs. Margaret (Frank) Walsh, secretary, is seeking re-election; and after a year's absence Harry Jesse is again asking to be returned to the board of which he was a first member. Michael Wojnowiak is the third candidate. Herbert Gentzen, incumbent, is not running.

There are five candidates for the Channel Lake Board which has three vacancies, two for three-year terms and one for an unexpired term of two years. Donald Bjork, appointed to fill the vacancy, is not a candidate. Lee McKinney, incumbent, is seeking re-election, but Edwin Hucker is not running. Other candidates besides McKinney are Elmer Meierdick, Jack Biggerstaff, Mary Chase, and Walter Hochbaum.

The school board members get no pay and very little honor, yet they are willing to stand for election because they know the public schools are vital to the nation's welfare and the vast amount of money spent for them calls for careful consideration.

It probably is more important to the electors to vote at a school board election than a political primary. In the grade school districts voting will be at the school houses, in the high school district the voting will be at the schools in Antioch, Lake Villa and Lindenhurst.

Hawkins Wins Second, \$4,000 in Pro-Golf Play at Atlanta, Ga.

Freddie Hawkins, who learned golf as a youth at the Chain of Lakes Golf course in rural Antioch, tied for second with Doug Ford in the recent Masters tournament at Augusta, Ga., sponsored by the Professional Golf Assn., and received \$4,000 as his share of the prize money.

The earnings last week ran his 3-year receipts past the \$57,000 mark in PGA-sponsored competition.

Hawkins, now married and having children, lives at El Paso, Tex.

His big year was in 1956 when he won the Oklahoma City Open, and was runner-up in the World Tournament at Tam O'Shanter, and the Baton Rouge and Kansas City Opens. That year he won \$24,805 in prize money.

Last year he was a member of the U. S. Ryder Cup team that played in England.

Hawkins' scores last week at Augusta were 71, 75, 68, and 71 for a total of 285. A bit of tough luck in the last round kept him from tying Arnold Palmer, the winner.

Sequoits Take Opener From Grayslake 8-7; To Play Ela on Friday

Rally in Fifth Gives Antioch Victory Over Rams, Sophs Lose

A final inning rally gave the Antioch Sequoits an 8-7 victory in the first game of the season here Tuesday with the Grayslake Rams. Tomorrow evening the Ela-Ver-non Bears will be the opponents.

Darkness cut to five innings the game with Grayslake.

The Sequoits went into the inning trailing by three runs. With one man out, Cote walked and Roach and Gudgeon drew passes, filling the bases. Jones' fly to center allowed Cote to score. Roach scored on Pyles' single, tying the score 7-7. On a double steal, Lind, the Ram catcher, overthrew third and Gudgeon came home for the winning run.

Grayslake got all of its seven runs in the third inning. In this inning Pyles became wild and walked three men. They scored on an error and a double by V. Gouley, the only extra base hit of the game. LaBrose finished the inning but allowed two hits before he settled down and thereafter pitched faultless ball.

Coach Larry Leon said that with the exception of his wildness in the one inning Pyles pitched good ball and although LaBrose is but a sophomore, he exhibited good control.

"Both teams had their early season misplays, but should improve as they go along," said Coach Leon. The Antioch mentor had seven lowerclassmen on the field at one time.

The diamond was in excellent condition and only early darkness interfered.

Wilmot Wins Track Opener From Salem At Central 73 1/2-43 3/4

Wilmot High shivered to a victory in field and track over Salem Central at Salem Wednesday afternoon by the score of 73 1/2 to 43 3/4.

Besides the nearly freezing temperature, the thinly-clad had to run against a strong wind, but in spite of these handicaps some good early season records were made.

Jim Bauman, one of Coach Bucci's outstanding lettermen this year scored 15 points for Wilmot, taking first in the high hurdles with a time of 50.9; first in the 100-yard dash, time 10.9 seconds; and first in the mile, 5 minutes, 13.3 seconds.

Wally Rosenstreter added 11 1/2 more points by taking first in the broad jump—18 feet 4 inches; first in the low hurdles, 25.3 seconds; and formed one leg in the relay which the Panthers won in 1:46.4.

For Salem Central David Poisl, one of Coach Bob Price's two lettermen, was the outstanding point maker with 11 points. He threw the discus 103.2 feet for a first place; took second in the high hurdles and second in the mile.

Wilmot, with a squad of 28 this year, will have its second meet next Wednesday with Union Grove at Wilmot. Waterford will come to Salem next Wednesday.

A.T.H.S. Music Assn. To Elect Officers at Meeting Next Monday

The regular meeting of the A. T. H. S. Music Association will be held at 8 p. m. Tuesday in the band room of the high school.

The slate of officers for the coming year will be presented by the nominating committee, and be voted upon. An evaluation of the recent tour will be given by Kenneth Smouse and Louis Chenette. At one time or another, during the tour, each of the students was photographed and these movies will be shown.

Plans for the coming school year are already under way, and will be discussed at this meeting. Parents may also wish to enroll their son or daughter in the summer band. This band offers many opportunities and gives the student experience for the senior band.

As further entertainment, Mr. Chenette will play selections on his marimba.

Following the business meeting and program, there will be a social hour in the cafeteria.

Roy Kufalk, cooperative weather observer, reports that more an inch of rain fell over Saturday and Sunday. This supplied much needed moisture in the area.

Bad Weather Failed To Prevent Crowds At Local Churches

Although cloudy weather and an occasional rain were poor inducements for any Easter parade in Antioch, the people went to church nevertheless and there was a large attendance at all services at the various Antioch churches.

The young people wore most of the new garb and the new chemise dress was in evidence.

Antioch merchants said there was a last minute rush of buying for Easter just as there usually is at Christmas time.

The rain served a good purpose in that the surface of the ground was dry and there were many grass fires. The moisture will be good for the starting of lawns and crops.

PTA Organized Wed. at Antioch High School

Rev. Wallace Anderson, pastor of the Methodist Church, was elected president of the Antioch Township High School PTA which was organized with 65 members on Wednesday evening.

Others elected who were installed by Mrs. Charles Fago of Winthrop Harbor, retiring district PTA director, were: Mrs. Glenn McNeil, first vice president; Mrs. James Tasker, second vice-president; Mrs. Grace Ganzer, secretary and J. R. Close, treasurer.

The meeting was arranged by Mrs. Charlotte Queen who presided. Mrs. Francis Mitchell served as recorder and Mrs. Fago gave a brief outline of high school PTA work and helped to organize the group which has decided to meet on the first Wednesday of each month.

By-laws were adopted early in the meeting which were drawn up by a committee consisting of Rev. Anderson, Mrs. Tasker and Winfred Bronstad.

Members of the nominating committee were Ralph Tutein, Mrs. Nicholas Zeien, Mrs. Eric E. Anderson, Mrs. Irvn Jonas and Mrs. Mitchell.

The organization will begin holding its regular monthly meetings next October and in the meantime Principal A. L. Dittman invited those present to return to the Parent-Teacher group which has been functioning three times a year without officers when it meets on April 24.

At that time the industrial arts and homemaking departments will exhibit their work. A style show will be included.

Grass Fires Caused Damage to Tax Funds

Four fire calls were added this week to the 25 received by the Antioch Fire Department during March.

The firemen were called to the Kern property on Depot street at 11:55 a. m. Thursday where there was a grass fire.

On Friday there were three calls. The first was at 11 a. m. to the Joseph Wotezak residence on Rte. 173 east of Channel Lake, where sparks from a chimney set fire to the roof. The damage was small.

The second was to the Avery Electric Co. store where a short in a lighting fixture at the ceiling destroyed the fixture but did no other damage.

The third was a grass fire at 3:50 p. m. at the Spiering farm on Tiffany road.

The firemen are hoping that there will be no more grass fires, of which there have been more than two dozen. They drain heavily on the tax payer.

Record Primary Vote for Twp.

Nelson Beats Nustra 2 to 1 For Clerk of Probate Court; Petty Unopposed

Casting a record vote of approximately 1,900 in Tuesday's primary, Antioch township through her six precincts joined the rest of Lake County in the victory slate.

Her 1,577 Republican votes helped re-nominate her native son W. J. Murphy, Pettie Lake, and Robert Coulson, Waukegan, representatives to the State Assembly, and Norris C. Froelich over Robert H. "Mickey" Babcox.

A rural Antioch resident, Mrs. Helen I. Burke not only was re-elected precinct committeeman for Precinct 4 over her opponent Rudolph Strametz 307 to 119, but she bested Frank (Fritz) Kazlauskis of Fox Lake as one of the three successful candidates for representative committeeman of the 31st district.

In addition Mrs. Burke's precinct was the only one in Antioch Township to go for Babcox, whom she supported.

The Democrats in Antioch Township joined those of the county in returning Jack Bairstow to the legislature over his fighting opponent, John Lawrence Balen. They also wrote in for Russell Schoenke as their candidate for sheriff against Froelich.

Antioch township gave Murphy the nod over Coulson, who ran first in the entire county with Murphy second. She gave Bernie Drew of Waukegan third place over Francis J. Berry of Libertyville, who was third in the county and Drew last. Here Kilbane was low man.

Froelich won from Babcox in the county by a majority of approximately 5,000. Babcox failed to carry his own precinct at Grayslake.

Louis E. Beckman lost the race for state treasurer to Warren E. Wright, an old Republican warhorse by 15,677 to 11,363 in Lake county and by a wider margin in the rest of the state.

Gerald Smith won easily over Lar (America First) Daly, and Mrs. Marguerite Stitt Church for congressman, and Mark H. Beaubien for state central committeeman had no opposition.

Besides Helen Burke, Robert J. Milton and Joseph N. Sikes were the other two successful candidates for committeemen at large.

Allen J. Nelson won 2 to 1 over Frank J. Nustra for probate clerk. Unopposed were Minard E. Hulse for county judge, Garfield R. Leaf for county clerk, Charles E. Jack for probate judge, Hugo L. Schneider, Jr., for county treasurer, and W. C. Petty for county superintendent of schools.

The Democrats with fewer than 5,000 votes in the entire county, selected Laurence A. Kusek over James J. Lentine for representative to congress, and David Levinson, Jr., over Thomas C. Bradley for state central committeeman.

Precinct committeemen for Lake Villa are No. 1—Anne Leisser; No. 2—Robert F. Wagner; No. 3—Walter W. Schneider; for Antioch township—No. 1—Charles J. Cernak; No. 2—R. F. Heiden; No. 4—Lester M. Hribar.

On the township level the Antioch Republicans chose No. 1—Russell G. (Bud) Holtz over Howard Gaston by 11 votes; No. 2—Charles E. Larson; No. 3—Francis L. Griffith; No. 4—Helen Burke over Rudolph Strametz; No. 5—Henry G. Pape; No. 6—Unreported.

Lake Villa Republicans—No. 1—Arthur Bennett; No. 2—Warren Bushnell (108) over Lee Albert Recklein (29); No. 3—John A. Schuler; No. 4—Elmer M. Wolff; and No. 5—Louis F. Schwicht.

Antioch and Lake Villa Police Asked to Join County St. Jude's Club

Antioch and Lake Villa policemen have been invited to become members of a county organization of the Illinois Police Branch of St. Jude's League, which was organized recently with Wilson Montori of Round Lake Park as president.

The next meeting of the league will be on April 16 at St. Bede's church in Ingleside when a nine-man executive board will be elected.

President Montori said that the election of directors was purposely delayed so that the officers might be spread as far among the villages as possible.

He said that the St. Jude's League, originally a Catholic organization, now includes non-Catholics. It works for better law enforcement and likewise is a social organization, he said.

Economic Highlights

The "Committee" has become a solidly entrenched American institution. Organizations of every conceivable kind—governmental, economic, social, fraternal, labor, etc.—constantly appoint committees and sub-committees to deal with all manner of matters, from the vital to the trivial.

In many and perhaps most cases these committees are necessary and do a reasonably good job. But there are cases where the committee can be a menace—and the national defense is one of those cases.

This is the substance of a long feature article in the Wall Street Journal which begins "If America ever does succumb to the Soviet, historians may record this contributing cause: The U. S. tried to defend itself with massed committees."

The committees in question run an exceedingly wide gamut. Some are made up of intellectuals, some of high-ranking service officers, some of businessmen, some of bureaucrats, some of Congressmen. According to the Journal, "they dominate this nation's defense effort, and depress it, and delay it." That startling observation is backed by leaders in the defense structure, especially those concerned with missile development.

Navy Secretary Gates, for instance, says that there are too many committees—"too many groups with veto power, without responsibility." General Medaris, head of the Army's ballistic missile program, pleads that he is "over-committed." General Irvine of the Air Force observes that committees "... sort of grow like weeds on the side of the road." The head of a concern which has been given the job of designing an intercontinental chemical bomber says "... it just seems every time I try to do something, I trip over a committee."

Some highly revealing evidence was given by Dr. Werner von Braun, our top rocket expert, in testimony to Congress. He said that he and General Medaris had to leave their work at Huntsville, Alabama, and go frequently to Washington to attend committee hearings. Asked if these hearings were constructive, Dr. von Braun said "I think we have too many..." They asked if the committee system impeded his work, he answered, "Yes, definitely." In subsequent testimony he added, in effect, that many members of the committees he has to deal with are brilliant experts in their particular fields, but are at a loss in dealing with various problems and developments involved in missileery.

The natural question to ask is why the committee system has gone to such extremes. The Wall Street Journal article provides an answer. The main reason seems to be that "the arms race has become a science race, and military officers and officials no longer approach their problems with assurance—even when they have hired able scientists to develop the weapons of the future. Grasping for certainty, they enlist batteries of Ph. D. outsiders to give advice."

At any rate, it certainly seems that far too many cooks now are stirring the defense broth. Committees have been piled on committees to a bewildering degree. Various solutions are offered, and are being considered by a group of consultants appointed by Defense Secretary McElroy. This group, Mr. McElroy emphasized "is not a committee." Its job is to come up with a sound reorganization program.

Horse of Another Color

Everybody uses some of the postoffice services to some extent. So, inevitably, proposed increases in postal rates become a hot political issue. That, as all readers of the news know, is certainly the case today.

Then, there is another complication. Many people believe that the carrying of letters, newspapers and magazines should not necessarily be on a self-supporting basis, on the grounds that this contributes

to public enlightenment and knowledge and so constitutes an essential contribution to the general welfare.

A good case can be made for that point of view—so long as it is confined to materials of the nature mentioned. But it can't be made for another post-office function—parcel post, the fourth-class mail category. It is a horse of another color.

Parcel post is a comparatively new service, dating from the World War I era. It is a strictly commercial enterprise, which makes no needful contribution to anything resembling public enlightenment or knowledge. It is directly and unfairly competitive with private parcel carriers. And, as a general rule, it has been operated at a deficit. Over the years, that deficit has totaled a huge amount of money.

Entirely aside from what may be done in the case of other postal rates, parcel post should be made to pay its own way—which means that charges should cover all costs, the indirect as well as the direct.

Batting for Uncle Sam

Human nature being what it is, we tend to envy people in the big-salary brackets. But here's a case where things aren't always what they seem.

For instance, slugger Ted Williams is the highest paid player in baseball history, at an estimated salary of \$135,000 a year. But, according to L. H. Gregory, sport's editor of the Portland Oregonian, he'll only have around \$35,000 left after paying his federal and state income taxes. In other words, he does a lot more batting for the government than he does for himself!

Where the Money Is

Old illusions die hard. A conspicuous example is the illusion that the rich pay most of the cost of government.

At one time there was much truth in this. But that was in a vastly different age.

Some facts presented to a House Committee by a spokesman for a group of Rhode Island industries tell the sad tale. The individual income-tax produces about one-half of all federal revenue. The beginning rate is 20 per cent, which applies to the lowest taxable income. From there it climbs, ladder-fashion, to a top of 91 per cent.

An uninformed person might deduce from this that the 20 per cent minimum tax is a comparatively unimportant revenue producer. He couldn't be more wrong—for 84 per cent of all income tax revenue is produced by that beginning rate. By way of comparison, in a late year the rates above 50 per cent produced only about 1 per cent of total federal revenue.

The reason for this is simple enough. There just aren't enough rich people to pay the tax bills, or even make a sizeable dent in them. Government must get its money from where the money is—and most of it is in the hands of people of small and moderate means. It is these people who have the greatest stake in efficient and economical government—and in measures which would get rid of non-essential spending and reduce the tax load.

Are You Happy in Your Work?

According to a Gallup Poll, almost half of the people are unhappy in their work. This news has prompted a worthwhile article by Pat Sturtevant in the March issue of Today's Health, the American Medical Association's magazine of general circulation.

Mr. Sturtevant has some proven advice, if you are one of the unhappy ones. In capsule form, it boils down to this: First, let specialists help you—modern techniques of testing, interviewing and counseling can work wonders. Second, get the facts—that is, assess your own pluses and minuses in an honest and critical way. Third, know where to go for work. Learn where the right job for you may be found. Fourth, find something you like. It's good, when possible, to develop a hobby into a job. Fifth, improve your present job. See if you can do your work better, or transfer to some other position in the same company.

All manner of emotional and psychological ills can develop from dissatisfaction and unhappiness in a man's or woman's job. And, in most cases, the trouble can be cured, to the lasting benefit and profit of all concerned. There are an incredibly large number of skills and callings in demand today, and there's no need for square pegs to try to fit round holes.

Such applications must be accompanied by a transcript of work completed in seven semesters, a statement of courses being taken in the final (eighth) semester, probable date of graduation, and rank in class based on seven semesters.

Students who present satisfactory credentials will be issued permits to enter the University subject to graduation and satisfactory completion of eighth semester courses.

U. of I. Food Report

April 7-12

CHICAGO — A normally quiet post-holiday week is punctuated by a few situations that will give consumers some break in retail food costs.

Meat-demand imbalances occasioned by religious observances created new spot-value possibilities, according to the weekly survey by the University of Illinois consumer service.

1. The poultry market has "busted open", with lead-value flyers coming through at lower prices, followed by turkey as a continuing value, and eggs that are real cheap on increased seasonal production.

2. Beef chuck roasts had backed up on the market and now are a concession price spot value, with general beef lines expected to turn lower in a couple of weeks.

3. Ham is a lingering-from-Easter value in almost loss-leader proportion, especially the large-smoked kinds. But in the face of high cost pork, this situation is not expected to last long.

4. Lamb forequarter cuts and chops are on the value list at lower cost, making other lamb items a special merchandising opportunity for many stores.

Retail meats take on the above complexion despite short livestock holiday-week arrivals and slightly higher wholesale prices—about a half-cent per pound for beef. A week ago, 25 per cent smaller than a year ago, and the smallest crop of any week in the last three years. But seasonal situations and consumer demand are expected to overtake the market before these firmer wholesales can be felt at retail, so expect generally lower prices to come.

In dairy and grocery departments, a majority of items are steady across the board, no significant changes noted. Butter and cheese report no price change. Only coffee at lower cost is the newsmaker in groceries.

Produce departments demand a wary eye, with prospects for cheaper prices, improved supply and quality further removed by adverse weather now inflicted on the west coast.

California apricots are reportedly 75 per cent wiped out for this season, is the state's apple crop (which is not, however, a major factor on national apple markets). Also affected: California strawberries, cherries, lettuce, avocados, spinach, and other soft lines. The predicted arrival of southern sweetcorn and snap beans on the Chicago market failed to materialize due to weather. California and Louisiana strawberries are very slim supply-wise and high priced. California and Florida oranges and grapefruit prices have strengthened.

It is generally conceded that consumers will pay for the winter's

rotten growing season throughout the rest of the year, since northern crops certainly cannot fill the gap and will come in at higher prices. A cold, wet northern spring would create havoc.

The whip-lash effect of weather will carry over into some processed grocery lines in the frozen and canned divisions. For instance, California spinach normally goes to canneries at this time. It is up-held because workers cannot get into the fields to harvest. Canners cannot wait, but will turn to other crops to maintain production schedules. The result may be higher canned and frozen spinach costs later.

In looking around for fresh produce values, the U. of I. suggests the following slim selections at steady to lower prices: cabbage, carrots, some lettuce, radishes; ba-

nanas, apples. Everything else is higher.

April normally is a good supply month for artichokes, asparagus,

cabbage, carrots, escarole, horse-radish, lettuce, mushrooms, radishes, spinach; avocados, bananas, pineapple, rhubarb, strawberries.

Midshipman Bazine on Superintendent's List
ANNAPOLIS, MD., March 27 (FHTNC)—Midshipman Dennis W. Bazine, son of Mrs. Bessie W. Boyd of 258 Park Ave., Antioch, Ill., class of 1959, has been appointed to the Superintendent's List at the U. S. Naval Academy, Annapolis, Md., for his accomplishments during the first term of the academic year 1957-58. It was announced today.

The List is similar in many ways to the Dean's List at many colleges and universities. In order for a midshipman to be so honored, he had to meet a minimum academic average of 3.3 (82.5%) in his studies, have a mark no lower than 3.2 (80%) in aptitude, and possess a conduct standing satisfactory to the Commandant of Midshipmen.

Those who achieve the distinction of making the Superintendent's List are granted special privileges commensurate with their class for the succeeding term. This also creates among the midshipmen an increased interest in doing well and taking deeper pride in their work.

Sandy Waldweller Has Ninth Operation in Battle For Recovery

Sandy Waldweller, 15, freshman at Antioch Township High School, underwent surgery Friday for the ninth time since she was struck by a Milwaukee Road train while watching a fireworks display at Fox Lake July 4, 1956.

In this operation a 14-inch pin was removed from her right leg, a stage in the repeated efforts of her physician to improve her so that she can walk again. She is on crutches and hopes to do without them before long.

Her fine spirit and determination have done as much as surgery in bringing about her recovery, her physician says. She suffered a broken pelvis, which has healed, and injuries to her legs which it was feared at first would necessitate amputation.

Sandy attends classes regularly at Antioch High and has her operation during vacation so that she will not miss school. When she witnessed the freshman dance she told her friends that some day she would be dancing again and she will.

Not only will she be dancing but she will be attending baseball games in Chicago without the use of her wheel chair, for she is a strong Cub fan.

Commonwealth Edison's Dresden Nuclear Power Station Ahead of Schedule

Another major step in the construction of Commonwealth Edison Company's Dresden Nuclear Power Station has been completed with the successful testing of the plant's huge 190-foot steel sphere, Willis Gale, Edison chairman, announced today.

The plant is located on the Illinois waterway 50 miles southwest of Chicago. It is being built by General Electric Company. The 3,500-ton sphere, which will house the country's largest nuclear power reactor, was filled with compressed air to a pressure of 37 pounds per square inch. This is 25 per cent above the design pressure of 29½ pounds per square inch.

With the test completed, two large temporary openings are now being cut through the 1.4 inch thick steel to permit moving in material and equipment for installation inside the sphere.

The largest piece of equipment to be moved in will be the 350-ton reactor pressure vessel. It is inside this vessel that the fissioning will take place. The vessel is being fabricated by New York Shipbuilding Corporation at Camden, New Jersey.

It is so massive it must be shipped by water. It will be routed over the Atlantic and Gulf Intracoastal waterways to New Orleans and then up the Mississippi and Illinois waterways to the site. Delivery is expected late this year.

"The Dresden program is well ahead of the original schedule," Mr. Gale said. "We believe that Dresden Nuclear Power Station will be the first full-scale, privately-financed atomic power plant to come into operation in the United States."

"Our contract with General Electric calls for completion by December 7, 1960. We are confident it will be ready for operation by the middle of that year. The most recent schedule indicates that fuel will be put in the reactor in the latter part of 1959, leaving six months for preliminary tests."

Dresden is being built by General Electric for a contract price of \$45,000,000. It will be owned and operated directly by Commonwealth Edison.

By not looking directly at a star, its image will fall on the more light-sensitive cells, and you will be able to see faint stars.

Production of coal in America in 1956 was 500,000,000 tons, or enough bituminous to build a wall around the nation 22 feet high and 10 feet thick.

"Petite Lake News"

This was the week for attending the stage play "My Fair Lady" at the Shubert Theatre in Chicago. Mrs. Wilbert Schaefer of Schaefer's Resort and Mrs. Harold Gaston of Circle Drive attended a matinee performance on April 2 with their bowling team from Adolph's Chan-

nel Inn. Afterwards they went to the Kungsholm Swedish Restaurant for dinner where they saw the opera, "Tosca," performed.

The Walter Johnsons on Richmond Ave. attended an April 3 evening performance of the same show as guests of friends, Ray and Doris Welk of Glenview. First they had enjoyed dinner at the Porterhouse of the Sherman Hotel and after the show they stopped at the popular Ivanhoe Restaurant. They were also overnight guests of the Welks.

"Great Balls of Fire" is a song title that might well describe the explosion in George J. Mazurka's garage last week. Some of the boys found what appeared to be a hand grenade in a field, and set it off. Some windows were broken but, fortunately, none of the children was hurt. It caused a good deal of excitement.

Classmates of Nancy Queen, daughter of the Clyde Queens of Indian Point, may be interested to know that she has a role in the play, "Teahouse of the August Moon," being presented in Chicago this Friday and Saturday by a group of semi-professional actors called the First Players.

Friends and neighbors were very sorry to hear of the death of Mrs. Loretta Braeckman and extend their sincere sympathy to the family. Mrs. Braeckman resided in the com-

munity about nine years.

A superb job of entertaining was done by Representative and Mrs. W. J. Murphy at an open house held in their Petite Lake home the evening of the primary election. Many friends and election workers enjoyed delicious refreshments after a hard day's work, while they excitedly watched the election returns coming in. The Murphys' three sons, Billy, Jerry and Bobby, took part in all the excitement by doing a fine job of caring for the wraps of the many guests that came and went. Billy's pet chameleon, which he wore on his coat, was also quite an attraction.

We appeal to you once again for news items for this column.

Mrs. Earl Beese, 532-W-1
Mrs. Walter Johnson, 405-M-1

Thank You

We wish to thank our many friends and neighbors for their kind sympathy during our recent bereavement.

John Braeckman and family

The Antioch News and Antioch Theatre invite Charles Clancio, Rte. 2, Sand Lake Rd., Lindenhurst, Lake Villa, Ill., and one to attend Sunday, Monday or Tuesday showing of "Darby's Rangers" at the Antioch Theatre.

THANK YOU

My sincere thanks to all my friends and neighbors in Precinct 4 for their vote of confidence and to my friends in Antioch Township for their fine support in Tuesday's election.

Antioch Aqua Center, Newspaper to Present Water Safety Rules

With this issue, The Antioch Aqua Center sponsored by the Lions Club, together with this newspaper present the first of a series of cartoons and articles on water safety rules. These articles are presented on the basis that, as Antioch is a summer recreation area, water safety is an important factor in our community.

Important from a standpoint that all of us who live here, parents and children alike, recognize and practice water safety rules. Important that the thousands of people who visit this area during the summer be aware of these rules and by our example learn to practice them. In this way everyone in the Lakes Region can better enjoy Water Sports, Swimming and Summer Recreation safely.

The Antioch Aqua Center provides the community with a fine program of swimming instruction as well as facilities for enjoying the exercise and healthful fun of swimming as a recreation.

TREVOR

(Mrs. Grace Miller, Correspondent)
Tel. Underhill 2-3059

I wish to correct a mistake in last week's item—it should have read as follows: "Rev. Bittorf of Bristol was a caller at the Chas. Oetting home on Friday."

Several neighbors and old friends attended the funeral of Erwin Pofahl at the Strang Funeral home in Antioch on Friday.

Mrs. Charles Oetting and Mrs. Grace Miller spent Tuesday in Chicago visiting at the home of the latter's sister-in-law, Mrs. Elsie Miller, who has been on the sick list.

Mrs. Eva Turnock and Miss Mary Sheen spent Wednesday in Kenosha. Phillip Lavendesk and granddaughter, Beverly Teckart, from Trappers Lake, Wis., were calling on Trevor friends recently.

Dennis Copper and Miss May from Madison spent the week-end at the home of his parents, Mr. and Mrs. Allen Copper. Their daughter, Frances, from New Ulm, Minn., has been spending the Easter holidays at home.

Tom Eifers from Northwestern College, Watertown, has been Easter vacationing at home.

Mrs. Mabel Peacy, who has been spending the past few weeks at the home of Mr. and Mrs. Lloyd Miller, has returned to her home in Waukegan.

Mr. and Mrs. Chas. Oetting called at the Louis Oetting home in Lake Villa, on Friday.

Mrs. Grace Miller spent Easter Sunday at the Tuft home in Johnsonburg, returning home on Monday.

Mr. and Mrs. Lloyd Miller have announced the adoption of an eight month old son and his name is Bryan Lorin.

Mrs. Elizabeth Forster was a vis-

The Antioch Aqua Center Presents "Zimmer the Swimmer & Safety Sam"

Swimming alone is one of the chief causes of accidental drowning in this country. This is especially true with young children who have been left unattended near the water. These facts prove one important thing — never swim alone. It is important, too, that you choose a swimming partner who has the same swimming ability as you have. To insure your safety and to enjoy your outing more—swim with a buddy.

While we're at it let's set down some ideas on how much time you should spend in the water. It is difficult to set a length of time one should remain in the water; but, usually in controlled bathing periods, it is set at one-half hour to an hour. This, however, cannot be applied to all persons: because some can stand immersion for longer periods. The general rule to follow is that a person may stay in the water until he feels physical discomfort. Only a few, especially children, al-

low their sense of enjoyment to outweigh a growing feeling of discomfort and prolong their periods of swimming. unduly. Uncontrolled shivering, a bluish tinge to the lips, a drawn and pinched face, cold and clammy skin, all tell an individual that it is time "to come out." These warning signs are easily recognized and should be heeded.

The most important thing to remember—Never Swim Alone.

The Antioch pool is staffed by a group of experienced Water Safety Instructors who not only see to the safety of your children while they are in the water, but will advise them to leave the water for a time should they evidence any of the above symptoms of discomfort.

A season pass application form for the Antioch pool is printed in this issue. Your season tickets will be mailed to you promptly upon receipt of the application together with your check.

itor at the home of Mr. and Mrs. Arthur Bjenebosc at Roselle, Ill., over the week-end.

Mrs. Jessie Runyard spent Easter Sunday with her daughter, Mrs. Russell Longman.

Miss Mary Bush spent the Easter holidays at the parental home. Dr. and Mrs. Liesemer of Chicago visited at the home of Mrs. Nel Runyard recently.

Mr. and Mrs. Harry Dexter motored to Hollister, Mo., to assist the teen-age group in the preparation of a play.

Mr. and Mrs. William Riemer from Chicago were Sunday visitors at the Frank Mattis home.

TAX FACTS

State funds not needed for current expenditures should be invested in "gilt edge" securities and not in any long term, revenue bond issues, the Taxpayers' Federation of Illinois said today. The Federation announced this policy in going on record as opposed to the State investing \$25,000,000 of its general revenue funds to help finance the Chicago Exposition Hall. The Federation is not against the construction of this hall and is not concerned with the current debate as to its location, but it is against such an investment of State funds.

The Exposition Hall or Center, to

cost approximately \$33 million, is to be financed by \$8 million from State race tax funds, and the remaining \$25 million by an issue of revenue bonds which won't mature for 30 or more years. These bonds would be retired or paid out of income from rental of the exposition hall.

The Metropolitan Fair and Exposition Authority, created by law to construct, equip, maintain and operate the Hall, has by advertisement offered the bonds for sale. Bond houses are not buying the bonds; hence the idea of the State becoming purchaser. If the public is shying away from the bonds, so should the State.

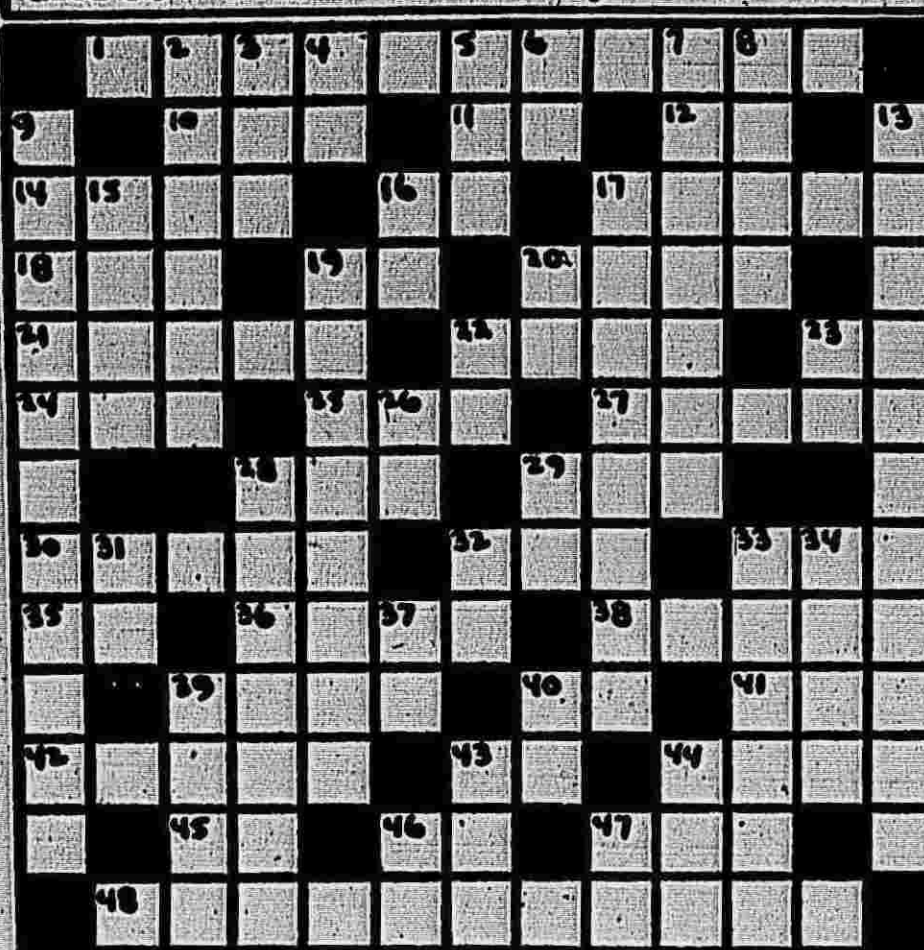

While it is a fair estimate that the State could have a surplus of \$25-

000,000 in its general revenue fund by June 30, 1959, such funds should be kept for essential State needs. With current demands for a deficiency appropriation for public assistance purposes, and with claims

being made that more State aid will be needed for schools for the next biennium, there is grave doubt that \$25 million should be taken out of circulation and invested in these or any other long term, revenue bonds. An investment of this sort would establish a bad precedent.

At the present time, a taxpayer suit is in process to enjoin the State from purchasing the bonds. Regardless of the outcome, the State should not become such a purchaser;

the Hall should be a pay-for-itself proposition.

At the next session of the General Assembly, the Taxpayers' Federation will work with members of the legislature to amend present statutes to prevent the State from purchasing such long term, revenue bonds. The State in handling its funds acts in a fiduciary capacity, and in this capacity, should not buy bonds which are unfavorable to public bond buyers.

How many of these electric helpers
have you added since 1947? ...asks LITTLE BILL

☐ a ☐ b ☐ c ☐ d ☐ e ☐ f ☐ g ☐ h ☐ i

You're an average family if—in the postwar years you've added six new electrical appliances. Shown here are a few typical examples.

This is why you're using far more electricity nowadays than you did just a few years ago. And why life is a lot easier. But of all the things you buy today, electricity has gone up less than almost anything else.

So, while your bill may be a little higher, electricity is actually doing nearly twice as much work for the money now as it did years ago.

See how little it costs to run each of these electric helpers.

a—Automatic washer—3 loads for 1¢. Saves hours of work each week.

b—Electric dryer—6¢ a load is all you pay to dry the clean electric way.

c—Hi-Fi—5 hours for 1¢. 10 long-playing records played for a penny's worth of electricity.

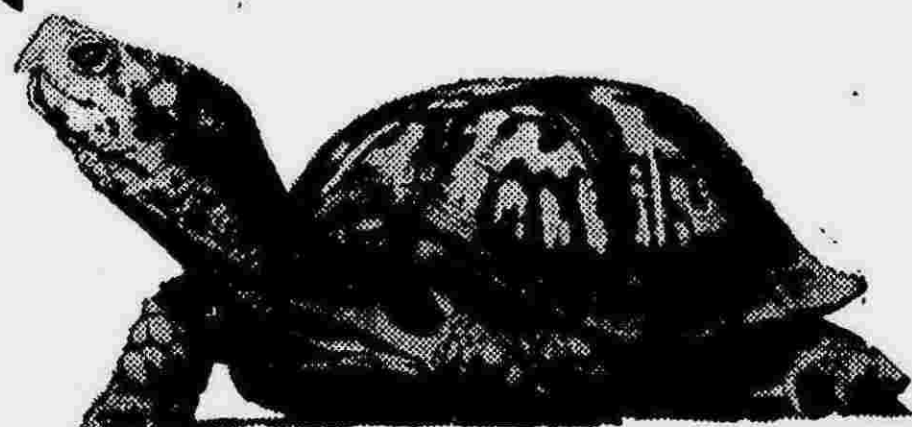

d—TV set—2 hours for 1¢—The world's finest entertainment for pennies a day.

e—Sewing machine—runs 5 hours for 1¢. (Easy way to stretch your clothes budget.)

f—Refrigerator—3¢ a day. New under-counter model is handy for soft drinks, ice, or snacks.

Other appliances shown include:
(g) Steam iron—Glides along easily on its own cushion of steam for 1 1/8¢ an hour.
(h) 150-watt lamp—Good reading light costs but a penny for 3 full hours.
(i) Electric clock—the exact time, just 1¢ a week.

Baseball Prospects Dim at Wilmot High

Although Wilmot High shared the Southern Lakes baseball championship with Whitewater City last year, prospects for a championship team this year are dim.

When Coach Bob Handke's men open their season at home April 18 against Salem Central, there will be no seasoned pitchers and only four leftarmers, Dave VanEvery, catcher; Gil Amborn, shortstop; Norm Roberts, third baseman; and Don Amborn, outfielder.

Gil Amborn will serve as the team captain.

Severe losses to the team through graduation were Dick Timmer, pitching star; Ed Skora, shortstop; and Dutch Haase, outfielder.

Coach Handke always has been able to train his proteges to the utmost proficiency and perhaps from the following squad he will be able to develop a fine team before the year is over:

Pitchers: Junior, Jim Schilz; Freshmen, Larry Dombrow, Greg Bush, Dennis Jeffers.

Catchers: Junior, Jim Elwood; Sophomores, Dave Van Every; Freshman, Glenn Rasch.

First Basemen: Sophomore — Frank Jacobs.

Second Basemen: Junior, Fred Cornell; Freshman — Ken Een.

Shortstops: Senior, Gil Amborn.

Third Basemen: Sophomore, Norm Roberts.

Outfielders: Seniors, Charles Kist, Dave Ezelle, John Lovely; Juniors, Don Amborn, Harry Marcussen; Sophomores, Frank Platts, Bill Van Patten; Freshmen, Jim Kenny, Ben Yuknis, Bill Breen, Ronnie May, Jim Schulte.

Schedule:
April 18—Salem Central, home
April 24—Burlington, home
April 28—Lake Geneva, home.
May 1—At Delavan
May 5—Mukwonago, home
May 8—At East Troy
May 12—Whitewater City, home
May 15—At Elkhorn
May 19—Open date.
May 22—At Salem Central (7:30 p. m.)

Seven Teams Sign For 16-Inch Ball In Antioch League

Seven teams have signed up for the new 16-inch softball league in Antioch. Dr. R. A. Carlucci announced following a meeting last Thursday evening at the Antioch Township High School.

They are Volo, Bell Telephone Co., Antioch Division; St. Peter's Church of Spring Grove; Lake Villa V.F.W.; Lindenhurst Men's Club; Bussie's Lounge; and a team sponsored by Dr. Carlucci and Richard Seyfarth.

Carlucci said that the next meeting will be held at 8 p. m. Thursday, April 17 in the high school cafeteria.

At that time the managers will make the rules, decide the entrance fees, schedules, and uniforms.

Anyone wishing to sponsor a team is urged to attend this meeting.

H. W. Lang and one member of the Village Board will be present to give information on the progress made toward the lighting of the Little League diamond where the games may be played.

Channel Lake News

This is a new column for news items from the Channel Lake area. It will be a weekly column, if there are enough people interested in seeing their news printed.

If you have items of interest to report please phone Mrs. Lois Ward, Antioch 933-M.

Mr. Clarence Jarvis is making inquiries as to how many boys, between the ages of 8 and 12 are interested in forming a baseball team to represent Channel Lake in the Little League.

The Channel Lake Community Club held its regular meeting at 8 p. m. Tuesday, April 8. A committee was formed to investigate property to be purchased by the club for a club house, comprised of Russell Roepenack, William Chase, Mrs. L. Ward, and Mr. and Mrs. C. Reynolds.

Carnival plans are progressing nicely. Volunteers will be needed to man the booths, etc.

Members of our club are aiding the Red Cross in obtaining contributions from our area.

Mr. and Mrs. John Rackow of Barrington visited Mrs. Rackow's mother, Mrs. Hannah Brett, Channel Lake Bluffs Subd., on Easter Sunday. Mrs. Rackow gave her mother a lovely pink begonia.

Pfc. Terry Horton, stationed with the marines in the Philippines, was recently pictured in the Honolulu Star newspaper as the donor of a pint of blood there to be transferred to the Red Cross Chapter in Philadelphia where a delicate heart operation for a 16-year-old girl was scheduled. Terry is the son of Mr. and Mrs. Herbert Horton of Antioch.
